PROFILE

I am a Frontend Developer with a strong interest in creating modern and user-friendly web applications. At 17, I already have experience working with frontend technologies and a basic understanding of backend development. I learn new technologies quickly and enjoy keeping up with the latest trends in the IT industry. I am detail-oriented, highly motivated, and passionate about writing clean, efficient, and maintainable code. My goal is to grow as a developer and contribute to building high-quality digital products.

WORK EXPERIENCE

PERSONAL PROJECTS

Frontend Developer

- Developed responsive websites using HTML, CSS (SCSS), and JavaScript
 - Built projects using React (component-based architecture, hooks, state management)
